CLAIM MANAGEMENT SYSTEM

EXACOM Claim system has the built-in intelligence to perform complex validation checks such as claim limits, approvals, validity dates and payment rules. It allows multi-level approval, and multiple submissions, and EXACOM Employee Self-Service Module for submission and enquiry on claim limit and approval status.

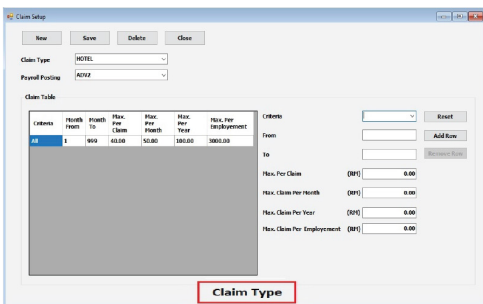

Features:

- Easy setup and user friendly.
- Multi user access.
- Multiple companies.
- Microsoft SQL Express database
- Microsoft Azure SQL Cloud Database.
- Auto-calculate claims entitlement.
- Easy to check claims status.
- Multi-levels approval.
- Approval & notification via e-mail.
- User-defineable claim items.
- Powerful reporting.
- Unlimited claim types creation.
- Claim amount capping, and auto-prorate function.

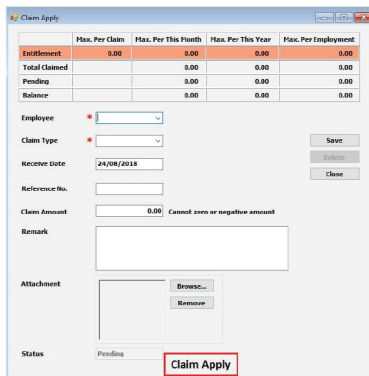

Advantages:

- Linked EXACOM Employee Self-Service Module.
- Email approval or application approval.
- Multiple claim submission and multi-level approval.
- Able to include images as attachment.
